Players may choose which division they are going to participate in:

Whage Division: This division consists of playing in a weekly stroke play format where every player will play their own golf ball each week. Each week you will be paired with another two-person team. A division champion will be crowned based on cumulative points throughout the year, handicaps will be established and maintained for every player, and weekly scores and standings will be offered online using Glen Erin's Online League Website.

Sage Division: This division consists in playing our weekly fun "outside the box" games. Teams will be paired with other ladies in a laid-back format designed to promote fun and an enjoyable golf experience. Our Sage Division will award points to weekly event top finishers. Team points will be tracked throughout the entire season and prizes will be awarded to teams based on league standings at the end of the season! This division is designed for ladies who enjoy a weekly round of golf with friends in a NO PRESSURE environment. Fun is the game, with a secondary emphasis of learning and improving your golf game!
